

GUIDE TO MAJORS

MUSIC

FOR ADDITIONAL
INFORMATION SCAN
THE CODE

WHAT IS MUSIC?

Music majors study the basics of music theory and composition, music history and literature, and music performance in order to give them an appreciation of the pleasures and an understanding of the role of music in the arts and humanities. The study of music has been at the heart of the humanities since the beginning of the Common Era and has traditionally exerted a major influence upon cultural, creative and intellectual life. Participation in the arts and humanities contributes significantly to broadening a person's vision and understanding of the human condition.

WHAT CAN I DO WITH THE MAJOR?

A major in music trains individuals in a skill set that offers a solid foundation and preparation for graduate school (in many areas) as well as employment (in almost any field). Many music majors choose careers in education, professional music, communications, business, law, skilled crafts, social services, health care, and broadcasting.

TRACKS IN THE MAJOR
